

Infinity ICT Control - Most Simple Multimedia Teaching system

Infinity ICT Control offers novel tools for computerized teaching solution in the networked classroom. Teachers can fully manage the entire class and keep the students' concentration during teaching.

- ✎ User friendly teacher control interface with procedure indication, learning to use in minutes.
- ✎ Just one click to real time broadcast video or teacher screen to students' monitors.
- ✎ ePen – a marker to draw, type and highlight the key part during teaching.
- ✎ Simultaneously monitoring audio and video in students screens.

Real time broadcasting Teacher Interface

with Special Student interface

Picture-in-Picture on Student Monitor

Student screen & audio monitoring

- ✎ Teacher remotely controls any student PC and broadcast to other students' screens.
- ✎ Teacher can assist any student at any time when student presses Help button.

- ✎ Transfer files/receive files from student's PCs.
- ✎ Send and open files on individual, a group or all students' PCs.

Send & retrieve files

Student Workstation Management

- ✎ Special student interface can be added onto students' screens for class discipline control.
- ✎ Remotely open/close all applications.
- ✎ Lock all hot keys: Ctrl+Alt+Del, Ctrl+Esc, Left Windows, etc.
- ✎ Block all means to access Internet.
- ✎ Remotely Power ON/OFF, Wake-on-LAN.

Scalable :

Infinity products are designed with modules. Infinity ICT Control can become Infinity DLL easily by adding other language practice modules, thus turning a computer room from multimedia lab into an advanced language lab.

Specifications for Infinity series products:

- Microsoft® Windows® 2000 or XP
- P4, 2.4 GHz CPU, 512 MB RAM for teacher PC
- Celeron 2.0 GHz CPU, 256 MB RAM for student PC
- AC97 sound card (*)
- Network Adapter
- 100Mbps (with IGMP) Network Switch

Citi-DIC Software Maintenance

Citi-DIC Software Maintenance allows Infinity software users to receive updates that are available during the coverage period without paying an update charge. Software Maintenance for Infinity series products is available for 1 and 3 years.
